A quicker path **to more complete reimbursement**

Your clearinghouse is the central nervous system of the revenue cycle and the primary source of payment for your business—this means getting clean claims out the door and proactively triaging payer responses is imperative. Waystar's claims platform can help you avoid rejections and denials, automate claim status checks, streamline appeals and more. And because implementation and integration are seamless, switching to Waystar has never been easier—or more worth it.

Claim Management

Powered by healthcare's largest unified clearinghouse, Waystar's Claim Management solution provides the data and tools you need to bring in more revenue—at a lower cost and in less time. Unlock the full power of your core system with a claim engine that:

+ Deploys intelligent algorithms to status claims
+ Crowdsources data to ensure best in industry rules + edits
+ Translates confusing payer messages into plain English
+ Staff elevated as claim remediation experts with exception-based workflows

Disruption-free enrollment

Switching out your claims management system seems like a daunting task, but Waystar makes enrollment easier than ever with tools like e-signatures, enrollment dashboards, and auto-enrollment requests—all efforts to streamline implementation and give you greater transparency and control.

Our dedicated enrollment specialists ensure there is no loss of efficiency or disruption to cash flow, giving you confidence and security in making the switch.

Award-winning service

Waystar takes great pride in providing world-class support to our clients and it shows with results like our high Net Promoter Score, #1 KLAS recognition, and most importantly, how well our clients are performing. You can count on our in-house support representatives to answer your call or chat within seconds and expect any custom claim edits to be turned around within three days at no charge.
