Bring in more revenue with better data

On average, health systems and hospitals lose 1% of potential net revenue due to charge capture problems, which can amount to millions of dollars annually. Look to our predictive analytics, advanced rules and expert auditors to reveal actionable insights that can help you increase revenue.

Revenue Integrity

Codes and billing regulations are always changing, so ensuring charge accuracy and compliance are huge challenges. Our platform identifies incorrect and under-coded claims, helping clients uncover and protect millions in revenue every year and save hours of work.

Contract Management

Negotiating, managing and monitoring ever-changing payer contracts is demanding and complicated. With Waystar, you can upload commercial and government contracts within a week, manage them in one centralized place and easily track payer underpayments.

Our analytics also measure how contracts are performing and let you accurately model what-if scenarios in minutes—so you can make data-driven decisions and negotiate better terms.
